*THE MOST POWERFUL FORCE
IN THE UNIVERSE...*

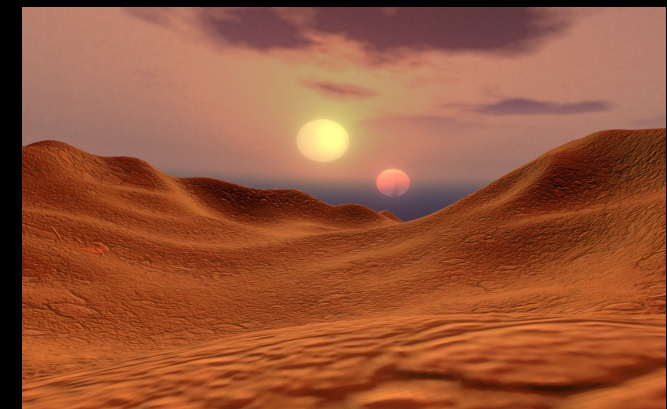

LOVE IS...Two Worlds

On Earth, in the Southern rural town of Mt. Carnival, the close-knit townsfolk struggle through hard times unaware of the infinite reserve of galactic power under their town.

On planet Erra, a loving and peaceful civilization exists in the shadow of the evil Orion Empire – but their power reserves are almost depleted.

A formidable adversary with an army of ruthless outcasts prepares to conquer Earth's humans and to steal its most valuable resource.

But – an Astral Guardian protects Earth from invasion – and she is the Mayor of Mt Carnival.

from the 18 original songs in this movie

We set out to create an original musical genre to fit the 21st Century...

... with an original story showing how and why alien life might exist on Earth...

... with all original music driving the action in high-energy song and dance segments....

... with all original love songs revealing the true desires of the characters...

And a with very unexpected twist at the end of the story.

PG-13 content makes this a family film...

... and It's possible that one of the songs in the movie and soundtrack album could be nominated for an Oscar and performed on-stage at the Academy Awards.

This opening song takes place at the outdoor amphitheater on Erra, where Orthela and Thelor and the whole audience realize the power source of their planet is almost depleted.

[LOVE IS ALL THERE IS](#)

Twenty-something Danny and Marissa sing this upbeat love song at the summer carnival. The townspeople join in to encourage them to revive the love they once shared in high school.

[LISTEN TO YOUR HEART](#)

Because it's possible that Allison won't return from her mission, she and Daniel and her Astral Companion dog, Prince, sing this love song just before she leaves to save Earth from invasion.

*LOVE IS...
Two Worlds*

A vibrant, ethereal nebula in shades of pink, magenta, and purple fills the frame against a dark, star-filled background. The nebula's wispy, cloud-like structure is illuminated from within, creating a soft, glowing effect. Numerous small, bright white stars are scattered throughout the scene, adding depth and a sense of vastness. The overall mood is serene and celebratory.
